In the face of sanctions and various restrictions on aviation activities, our ability to rent the aircraft that best suits the Client's needs is a strong competitive advantage.

This is why our Clients are always confident that they are solving their matters in the best possible way in terms of Price/Quality.

Why Us?

reason

TWO

A flight is much more than just moving passengers from point A to point B. It is a complex process involving many tasks and challenges that each of our Clients faces.

CORPORATE FLIGHTS

Each employee of Flight Generation Group is guided in their work by the ideology “we don't just organize a flight - we solve the Client's tasks”.

We understand the importance of teamwork and morale. Our team will make sure that your trip will be unforgettable, that you will get a charge of positive emotions, starting from boarding the plane.

It is enough to tell us the parameters of your event (destination, dates, number of passengers) and we will take care to make your related organizational issues as easy as possible.

SPORTS FLIGHTS

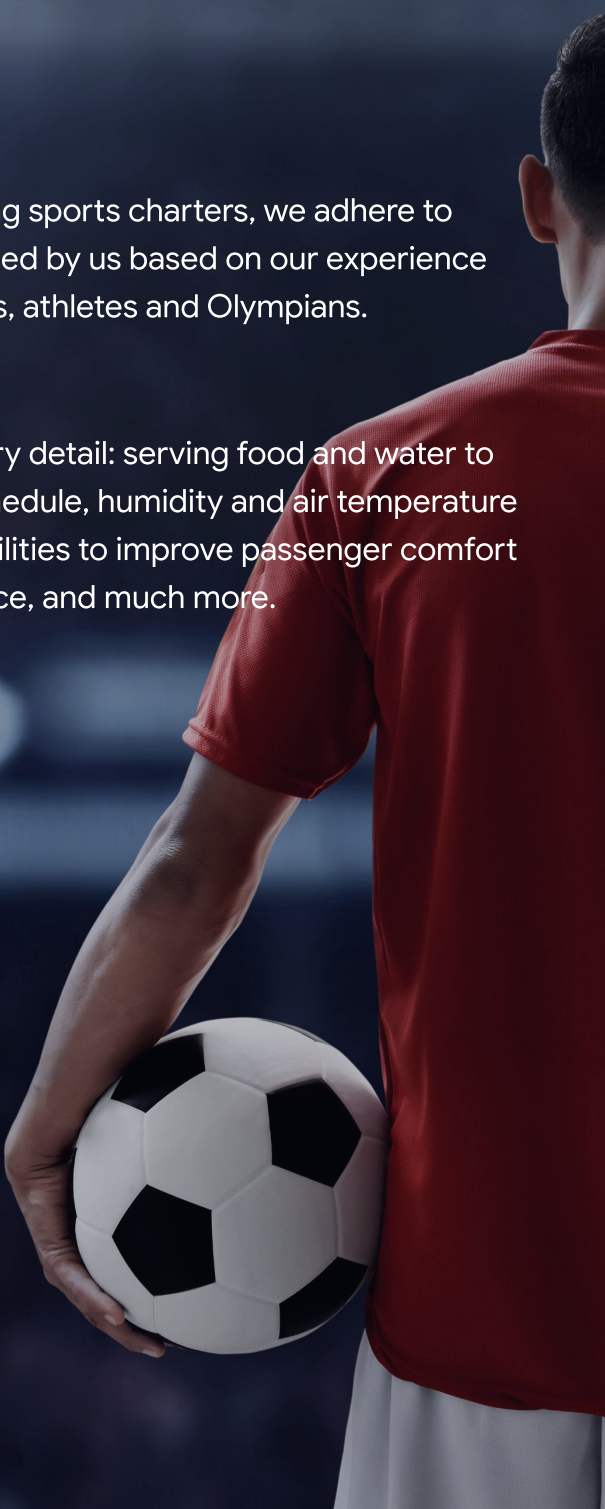

Studies have shown that every little thing ultimately affects the athletes' performance.

At Flight Generation Group, we realize how important flying is in the lives of athletes and how it can affect their morale and performance.

Therefore, when organizing sports charters, we adhere to special standards developed by us based on our experience of cooperation with teams, athletes and Olympians.

We took into account every detail: serving food and water to passengers on a strict schedule, humidity and air temperature in the cabin, providing facilities to improve passenger comfort based on the flight distance, and much more.

BUSINESS / VIP FLIGHTS

Customized VIP flights are the best metric to determine the quality of an airline broker.

We can be rightfully proud of the fact our NPS (Customer Loyalty Index) is 9.6 points. The measurement is based on a survey, whether the Customer would recommend the company to his friends, with a score from 0 to 10 points.

This means that we successfully meet the challenges we face, where we have to be able to react quickly to changing circumstances and the wishes of our Clients.
